Thank you for the opportunity to provide you with information about the range of Italian made specialty countertop and wall hung basins we currently have available. We also have listed some Chinese made basins. Country of manufacture is noted in the listing.

ABOUT RENOVATORS DELIGHTS

Wholesale & Import

We are always looking at new products that are different to what is available in the market and we are able to source products for you as either a direct supply or a continual supply arrangement. We also offer indent pricing on some lines.

Our sister business is BBX Northmead – a business to business exchange that provides an opportunity for businesses to utilise the excess capacity in their business through new customers, ability to clear slow moving stock at retail prices (not discounted), and access to an **interest free** credit line of up to \$50 000. Contact 0412 025 742 for further information.

Shipping & Pickup

Payment must be made in full before any goods are pickup up or shipped and funds must be cleared. Goods will be available for pickup from our Mount Druitt storage by arrangement. Pickup by couriers must be prearranged as there is not always someone at the warehouse. The buyer is responsible for arranging and the cost of the courier or freight. A forklift is available for loading palletised items. Please note that individual or small quantity items will be picked and packed at the end o each week. Larger quantities will be prepared within 2 days.

Please be aware that basins are packed for bulk palletised shipping and as such generally do not have any additional padding within the boxes. For this reason we strongly recommend personal pickup for small quantities or individual items. Interstate shipping for individual items risks damage. Please understand that we cannot accept any claims for breakages once items have been lifted from the ground at our warehouse. All shipping is at the buyers cost.

Inclusions & Packaging

Please note that taps, accessories, wastes etc shown in the pictures are not included unless specifically noted. Some of the larger vanity tops have compressed or marked boxes from storage, and so are suitable for installers etc more than retail display. The actual vanity tops are first grade, it is only the boxes which are marked or compressed in some cases.

LINKS TO MANUFACTURER SITES

Links are below to some of the Italian manufacturer sites. Where possible a direct link to the item on their site is included within the listing. Where possible, product shots from the manufacturers are included within the listing. Please note that accessories such as popup wastes, mixers etc are not included.
